PHILIPS

37" Flat TV Plasma Pixel Plus

The Dream of the TV that can hang on the wall is now reality. This 37" Flat tv is the ultimate centre piece for any Home entertainment set up. Based on Plasma picture technology using the latest generation High Definition panel, this TV gives great picture quality to complement the beautiful design. Philips latest resolution technology of Pixel Plus is also included to enhance further the fantastic picture quality. 4 On board speakers generating 30 watts RMS output are smartly integrated into this beautiful design with a depth of only 9cm, a perfect addition for many settings. Common elements with the rest of the Philips Flat TV family are the sleek, slim lines and the ability to mount on a table top or hang on the wall.

Product highlights

Flat, Slim, Wide

True Flat Multimedia TV which can be hung on the wall like a painting.

Plasma High Definition Panel

State of the art plasma screen technology enabling brilliant flicker free picture with optimum brightness and superb colours.

Pixel Plus

Uses the power of the Pixel Plus processor to create 80% more lines and increase the number of pixels by 50%. The result is razor sharp pictures with incredible detail and depth, every time from any source.

Digital Natural Motion

Philips invented Digital Natural Motion to eliminate juddering effects that are visible with moving picture content. Digital Natural Motion estimates motion in the picture and corrects juddering movements in both broadcast and movie material (DVD). Smooth motion reproduction and excellent sharpness are the result.

Digital CrystalClear

A unique package of picture innovations including Combfilter, Dynamic Contrast, Color Enhancement and Luminance Transient Processing. Digital Crystal Clear, using 10 bit processing, offers 30% more contrast, natural colors and a high level of detail.

Full Active Control

Active Control automatically analyses, 50 times per second, the incoming signal and adjusts the key picture settings on Sharpness, Digital Noise Reduction, Color, Contrast and Picture Format. The ambient light sensor adjusts the settings according to the viewing conditions in the room. Active Control thus offers the best possible picture settings any time, any source.

Compass GUI

The new Compass graphical user interface provides for easy and intuitive operation and installation through a dynamic display. Full control of all functions through clearly layered menus. Built in help function also provided.

Cinemalink AV System Control

Philips Cinemalink allows for plug-and-play installation and easy operation via one Remote Control of a fully integrated Home Cinema system set up of video and audio components. Control of all components is done using the TV Remote Control and the TV screen menu. Included is TV center mode. The cinema-Go RC button will automatically activate all system peripherals in the correct configuration.

1200 Page HyperText & Wordsearch

Advanced Teletext featuring based upon the new Compass GUI with navigation functions Wordsearch and HyperText. In HyperText select any word within the teletext magazine and this system will find all other mentions of this word within teletext for that channel. Wordsearch is similar but you have the freedom to type in, using the remote control, a word of your choosing.

Full Dual Screen

The ability to watch simultaneously two different channels, either 2 programs or any combination with Teletext and/or NexTVView.

Mosaic Screen

Able to show main picture surrounded by eight smaller pictures from other channels
